

Sydney Adventist Hospital Redevelopment – Stage 1

Case Study

Client Sydney Adventist Hospital
Value \$181m
Location Wahroonga, NSW
Duration 2010 – 2014
Service Strategic Advice, Business Case Management and Project Management

The Sydney Adventist Hospital (SAH) has embarked on the redevelopment of their existing facility to provide a new Clinical Service Building, Entry Building, Multideck Carpark, new site infrastructure and temporary works for business continuity.

The redevelopment provides a 25,000sqm expansion of the Clinical Services Building for an acute care facility incorporating an additional ten operating theatres, four fast track surgery suites, 180 single inpatient beds, an Integrated Cancer Centre and the establishment of a new entry hub into the Hospital.

The Sydney Adventist Hospital engaged Johnstaff as Project and Business Case Managers for the preparation of the Masterplan and Strategic Business Case. Following confirmation of funding, Johnstaff was engaged as Project Manager for the design and implementation of the new facility.

The challenge for this project is to maintain business continuity during the construction work, minimising disruption where possible, whilst maintaining the project programme.

The comprehensive procurement, specialist programming and buildability advice we have provided has enabled the SAH Executive to establish a strong risk management framework which is instrumental in maintaining business continuity and delivering this complex project.

Our team developed, established and is managing the key communication and approval process for this project. This has enabled Johnstaff to establish a strong and comprehensive delivery framework to work with the SAH Executive.

The Hospital Mission underpins the development of SAH's corporate strategy and development, and is a key consideration in the design of the new facility.

Our understanding of SAH's business, values and mission has helped us in securing an excellent relationship with the SAH Executive and wider team on this exciting and rewarding project.
